Accepting Proposals Now

Deadline January 15, 2012

The National Association of Social Workers (NASW) invites submissions of proposals to present at the 2012 NASW National Conference Restoring Hope: The Power of Social Work.

General Submission Guidelines

The conference will focus on best practices, policies, and research findings that incorporate hope and resilience into Social Work practice. Abstracts are encouraged in all Social Work practice areas, and at all levels of practice (micro, mezzo, or macro). Concepts of hope and resilience can be demonstrated through individual and group clinical interventions, care coordination, and resource access; as well as, organizational, policy, and administrative changes with all populations, across the lifespan.

Submit your vision for hope at www.professionofhope.org
